Power Up

Charging a fully drained battery takes approximately 3 hours. There are two ways to charge the BlackBerry.

From a wall outlet:

- Insert travel charger into mini-USB port located on left side of device
- Plug charger into wall.

Tethered to your computer:*

- Insert USB Sync-cable into mini-USB port** located on left side of device.
- Connect other end to USB port on our PC.

** Windows Drivers may need to be installed prior to charging.*
*** Do not insert the charger into a USB hub.*

Reach Out and Call Someone

My Wireless Number?

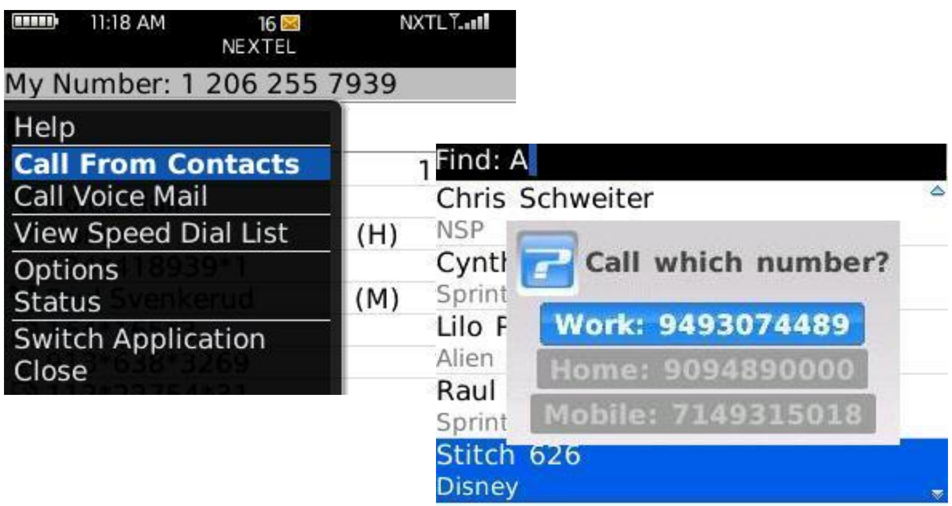

Press [Talk key] for Phone, number should be listed on top.

One Time Dialing:

- Click **Phone** icon or **Talk / Send** Key.
- Enter a phone number.
  (or) Highlight a previous call from the log.
- BlackBerry will also auto-search contacts as you type, select a contact if found.
- Press the **Talk / Send** Key.

Users can also dial directly from the home screen.
(Enabled by default.)

From Contacts:

- Click the **Contacts** icon
- Scroll to desired name and press **Talk / Send** Key.
- Select the number you wish to call, *(if needed)*
- Press **Talk / Send** Key

Pick Up the Phone!   -Incoming Calls!!!

Incoming Calls will display Caller ID information as available.

Receiving a Call:

- The number if available will appear on the screen. If the number matches a contact, their ID will display.
- Press **Talk / Send** button to answer.
- Press **End** button to ignore.

*Rolling Trackball or pressing **Volume** keys will mute call ringer.*

Call Waiting:

While on a call, a message will pop up of the incoming caller.

- Press **Talk** to **Answer** new caller.
- Press **End** to **Ignore** and send call to voicemail.

(or) Press **Menu** and select an option-

Answer- Hold Current Call Waiting
Answer- Drop Current End current and switch

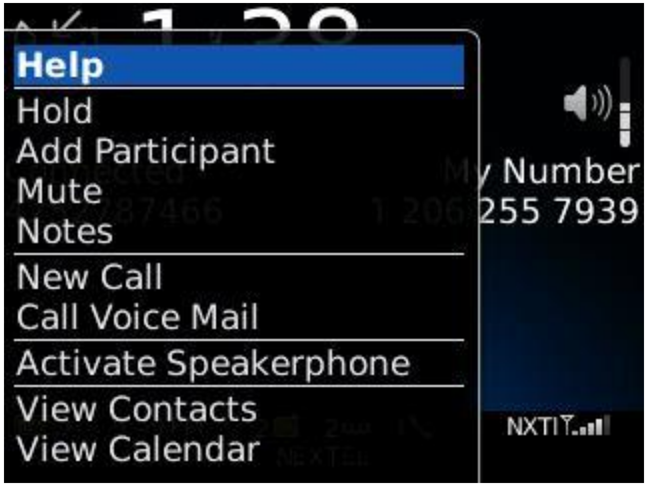

- To switch between calls, press **Talk** button.

Press the **End** Key to hang up or disconnect a call.

Multi-Task while on a call

The BlackBerry can do a variety of things while on a phone call!

Press Menu for In-Call options:

- Place a call on **Hold.**
- **Mute** your microphone
- Insert **Notes** during the call
- **Add Participant** (3-Way Call)
- Call your **Voicemail**
- **Hide** the active call screen
- Turn **Speakerphone** on/off

and more!

Volume:

- Press the **+** / **-** side volume keys to adjust audio level.

Speakerphone:

- Press the ***$*** key to turn on / off speakerphone.

Mute Button:

- The **Mute** Key is located on the top left of the Curve.
- Press to Mute / Un-Mute the microphone

Extensions

Hold the 8 key to get a letter **X** then type in the Extension

The Curve can support conference calling and more!

Three-way Calls

- Connect to the first caller.
- Press Menu > **Add Participant**.
- Choose: Type a name /search Contacts
  Manual entry
  Select person from call log.

- Press **Send** key to call person.
- Once connected to the second person, press **Menu** > **Join** to combine.

Nextel Direct Connect

› *Fastest national push-to-talk network**

Direct Connect ID (DCID):

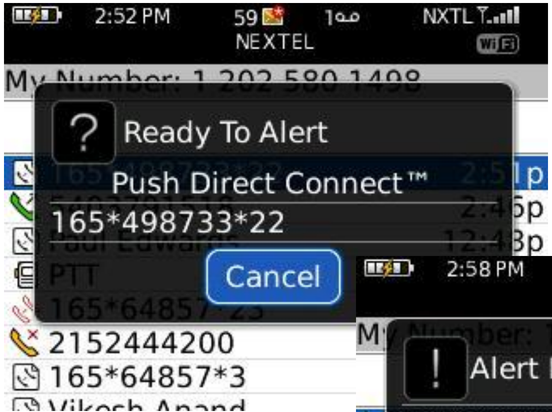

- Set of identifiers defined as-

  Area ID / Network ID / Member ID

- From **Call Log**, press [BlackBerry key] **Menu** > **Status**.
- Handset **DCID** will be shown.

Send Alert

Receive Alert

Call Alerts:

Allows you to 'alert' a user to begin a walkie-talkie call and not interrupt others.

When initiating a DC conversation-

- Use the trackball to select [Alert] **Alert**.
- **Ready to Alert** will appear.
- Press the **DC Button** will send an **Alert** to the recipient requesting a DC call.
- Receiver can then DC back to begin conversation or **Queue** for later to respond at a more convenient time.

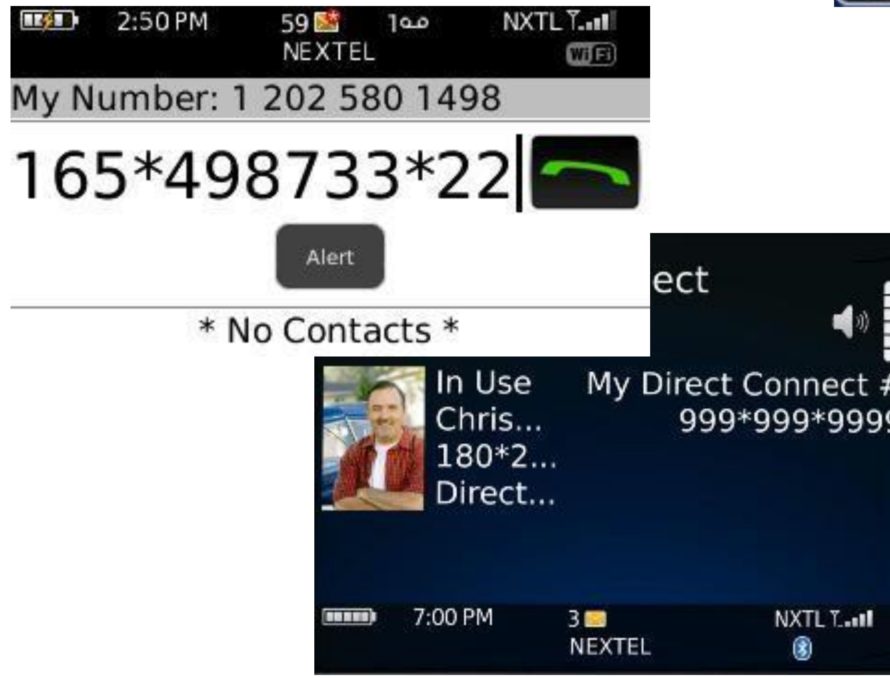

Using Direct Connect

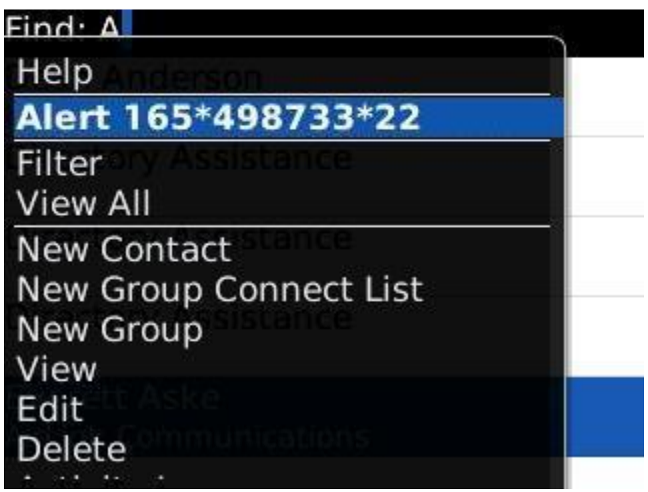

Direct Connect, simple, fast, done!

Using Direct Connect:

- Enter the **DCID**, with * as needed.
- Press and hold the side **DC Button** to initiate the Direct Connect Call.
- Once the Curve chirps, begin talking.
- When complete, release the **DC Button**, a 'clear floor' chirp will sound.

- Other user can then speak. Once user is finished, press **DC Button** to respond.

Direct Connect from Contacts:

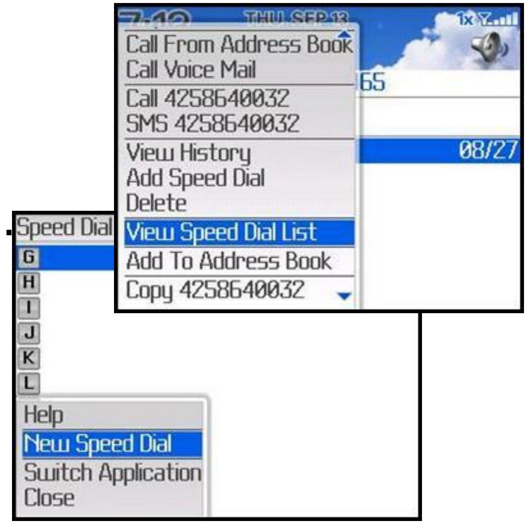

- With a contact highlighted, press **DC Button** to initiate a DC conversation.
- To send a call alert, press **Menu** > **Call Alert**, then press **DC Button**.

Speed Dials

User can assign all 26 keypad buttons to quickly dial numbers from the Home screen or Phone application

Note: **1/W** key is default to dial **Voicemail**.

Speed Dial can be setup by either holding a key to assign or by selecting **View Speed Dial List** from the Phone application. Once configured the user can simply hold the appropriate key for a few seconds to call the assigned number or contact.

Letter Dialing

From the Call Log (Phone App), dialing numbers using letters is easy.

- Simply dial out the word you want to call.
- Press the **ALT** key + letter for corresponding letter. <u>(i.e. 1-800-FLOWERS)</u>

The Curve will automatically convert the letters to the appropriate numbers. *(Dialing only)*

Voice Dialing

Voice Dialing allows simplified hands-free dialing

Using Voice Command

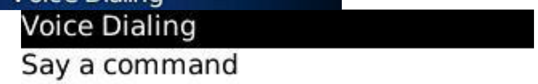

Press the Voice Command Icon

(Bluetooth users can simply hit the BT talk button)

When prompted, say the appropriate task:

Call	-Dial a number or contact.
Check	-Status of a BlackBerry item
Prompts	-Turn voice prompts on or off.

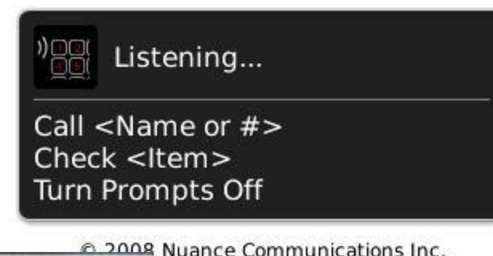

Calling:

VC will dial manually spoken numbers

VC will search contacts to match spoken name (First name, last)

Results will be prompted to confirm or select another result.

Check:

Check status of device such as

Signal strength, Battery, Phone Number, etc.

Prompts:

Voice dialing help assist status. (On / off)

Managing your Contacts

- The BlackBerry revealed.
- Setting the Options.
- Wireless freedom to Direct Connect.
- **Expanding your Contacts.**

Keeping in Contact with your People

The Curve interfaces with your Outlook Personal Address Book to keep your contacts close at hand.

Contacts are listed in alphabetical order:

- Scroll through to find the contact of choice.
- Quick jump to select contacts by typing out the first few letters of their name.
- Press enter or push in with the Trackball to view details, call, DC, or email the selected contact.

Contacts will list details such as:

- Company
- Email
- Office Phone
- Wireless #
- Address
- BB PIN
- *And more!!!*

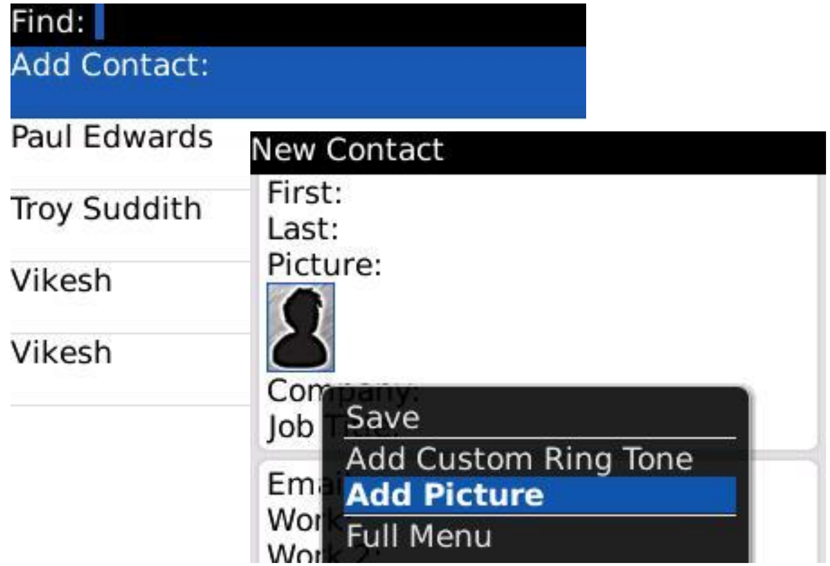

- Address
- Direct Connect ID
- IM IDs
- Alternate Phone #s
- Web Page
- Notes

Expanding your Network

Add Contacts on the fly and your BlackBerry will update your Outlook Personal Contacts wirelessly!

Adding Contacts:

- Select **New Contact** from the beginning of the Contact listing.
- Enter in the contact information.
- Add extra details such as a **BB PIN**.
- Contacts can be customized with a picture or ringtone.
- When finished, press **Menu Key** and select **Save**.

Existing Contacts can also be edited!

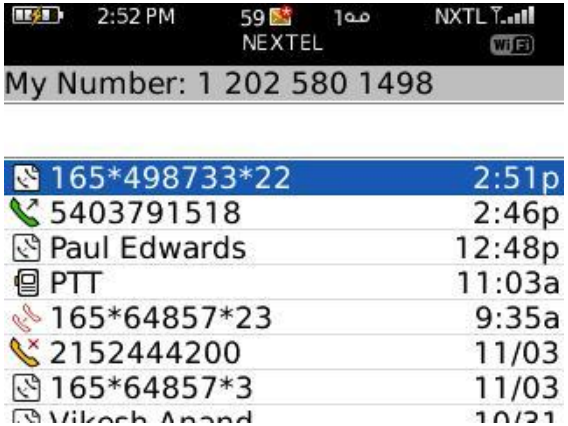

- Simply highlight the contact.
- Press **Menu** key > **Edit**.
- Make changes to the contact info as needed.
- When complete, press the **Menu** key again and select **Save**.

Creating Contacts from Links and Call Logs

Create a Contacts from the call logs:

- From **Home** screen, select **Phone** icon.
- Scroll to the number listed in the log you wish to add.
- Click the Menu key, select **Add to Contacts**.
- Complete the rest of the contact's information.
- Press the **Trackball** to view the menu and pick **Save**.

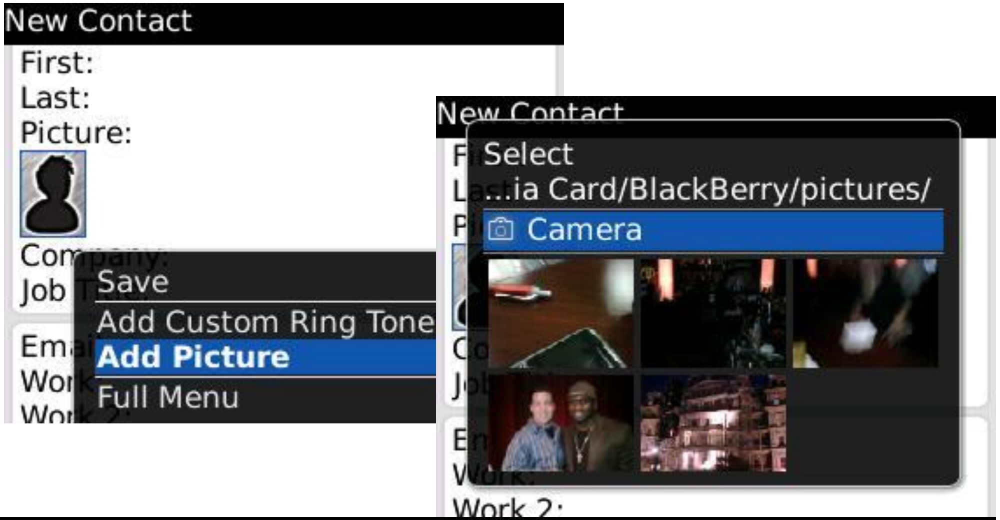

E-mail addresses and phone numbers can be stored from websites or emails in the same way.

Customizing Contacts:

When **Creating** or **Editing** a contact-

- Press **Menu** > Add **Ring Tone**
  Add **Picture**.
- Select and adjust accordingly.
- **Menu** > **Save** when complete.

Business is Email and Email is Business

- The BlackBerry revealed.
- Setting the Options.
- Wireless freedom to Direct Connect.
- Expanding your Address Book.
- **Emails is Business.**
- Calendar your time.
- Learn new worlds via Internet.
- Find yourself with GPS.
- Profiles in symphony.
- Multimedia explosion of Choices…

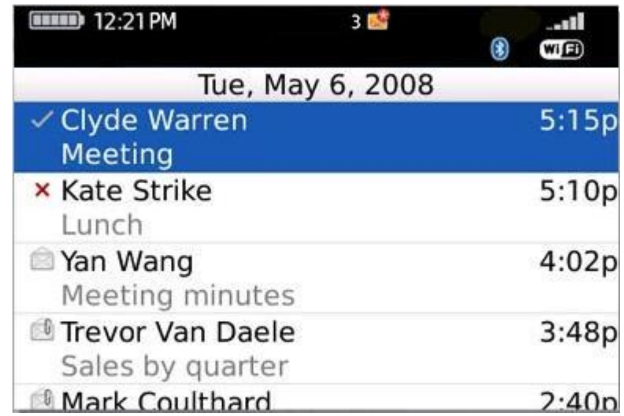

Emails make the world go round!!!

The Message List syncs in 'real-time' with your Inbox.

- Emails appear in chronological order.
- Icon status indicator on the left of the message.

Gold Envelope:	New message

- Emails are shown in **Text** or **HTML** format, fitted to the BlackBerry screen with images and style rules.
- Links and/or phone numbers will be underlined.

Open Hailing Channels- Composing an Email.

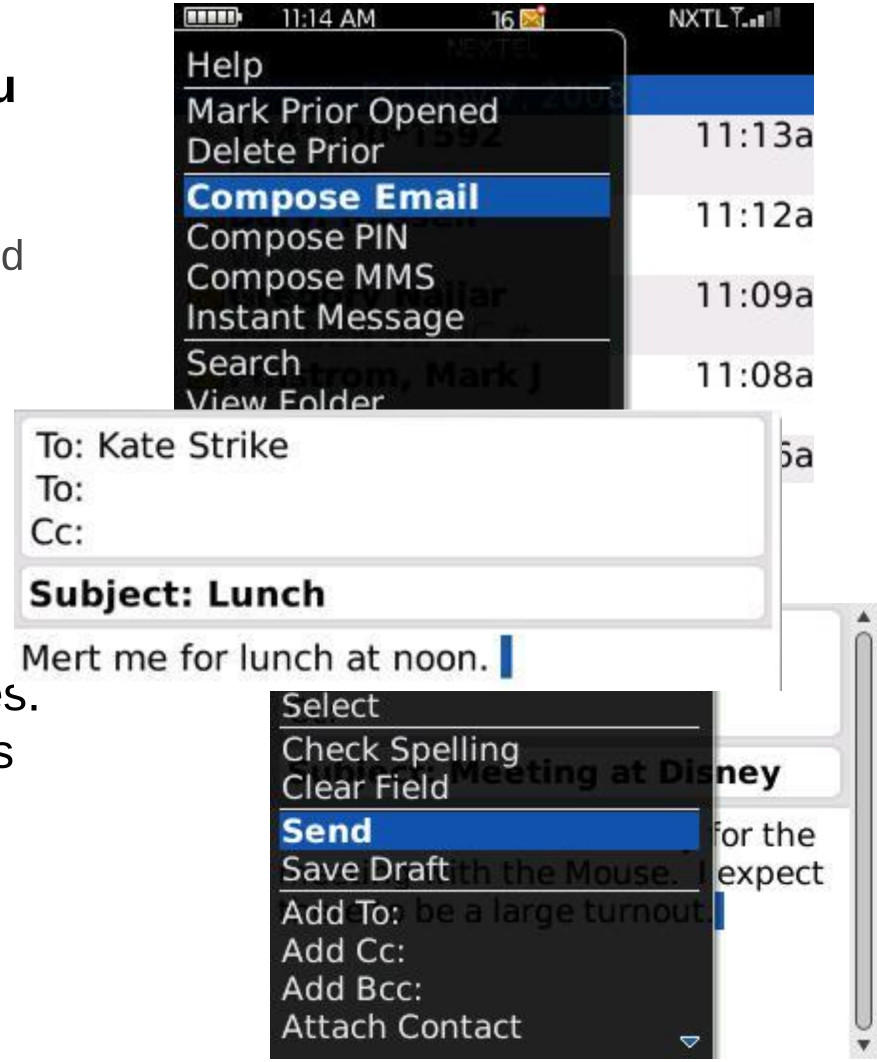

Composing a message is easy just like on your PC

Creating a new email:

- From the Message List, press the **Menu Key** and select **Compose Email**.
- Enter in the name of the contact .
  - Select name from the drop down list provided via the address book
  - or Select **LookUp** to use the GAL
  - or Manually type in an email address.
- Press **Enter** will accept selection.

- Add **cc** / **bcc** as needed
- Enter in **Subject** and **Body** of message.
- Use AutoText as needed for faster messages.
- Engage **Check Spelling** to search for errors

- Press the **Menu** key and from the **Submenu** select **Send** when complete.

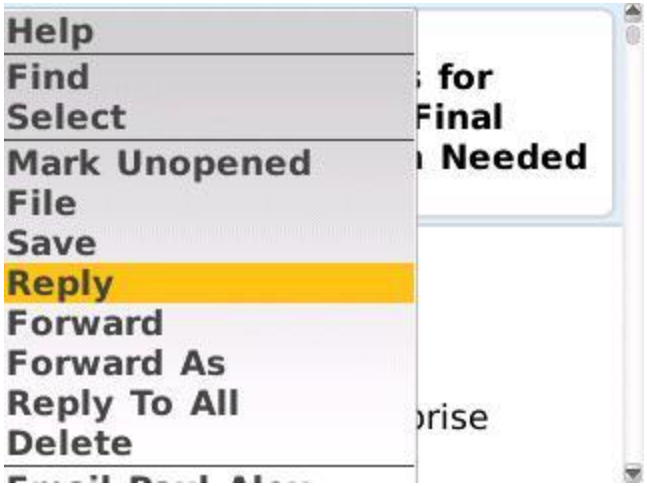

In Response to... I have sent your query to...

*With Messages, you can **Reply**, **Reply All**, & **Forward** to others!*

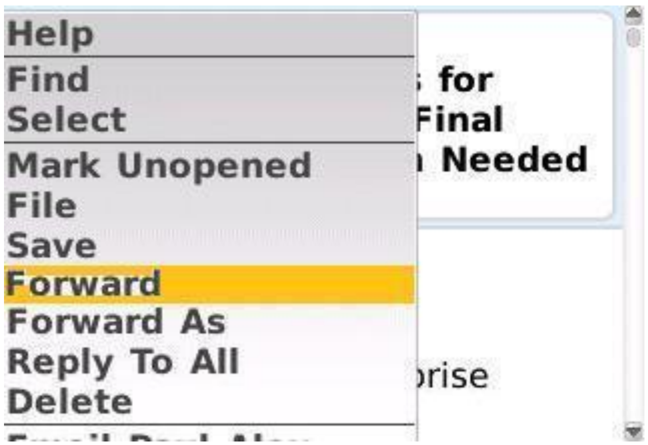

Replying to a Message

- Press **Menu** key and select accordingly.
  (or) Press **R** to **Reply** or **L** to **Reply All**.
- Enter in the response.
- Add additional correspondents if needed
- Press **Menu** key again and select **Send**.

Mark Messages Read / Unread:

- Select **Mark Read (Unread)** from the **Menu**.

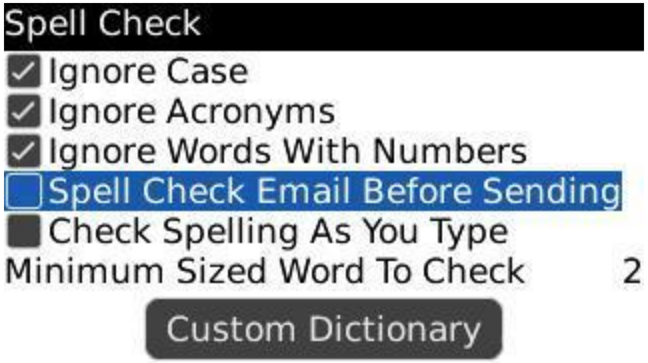

Forwarding Messages:

- Select **Forward** from the **Menu** or press **F**.
- Enter email address (es) of who will receive the forwarded message.
- Add additional comments if needed.
- Press **Menu** key again and select **Send** when ready.

Potato or Potatoe? Who's right?

Engage the Spell Check to be clear and concise.

Configuring Spell Check:

- Options > Spell Check.
- Customize preferences as needed.
- Enable Auto-check to validate emails prior to sending.
- Select **Custom Dictionary** to add / remove words to check with.

Using Spell Check in Messages:

While writing a message-

- Press **Menu** > **Check Spelling**.
- Errors will be underlined with suggestions for misspelled words.
- Press **Enter** to choose a suggestion.
- Press **Back** to ignore.

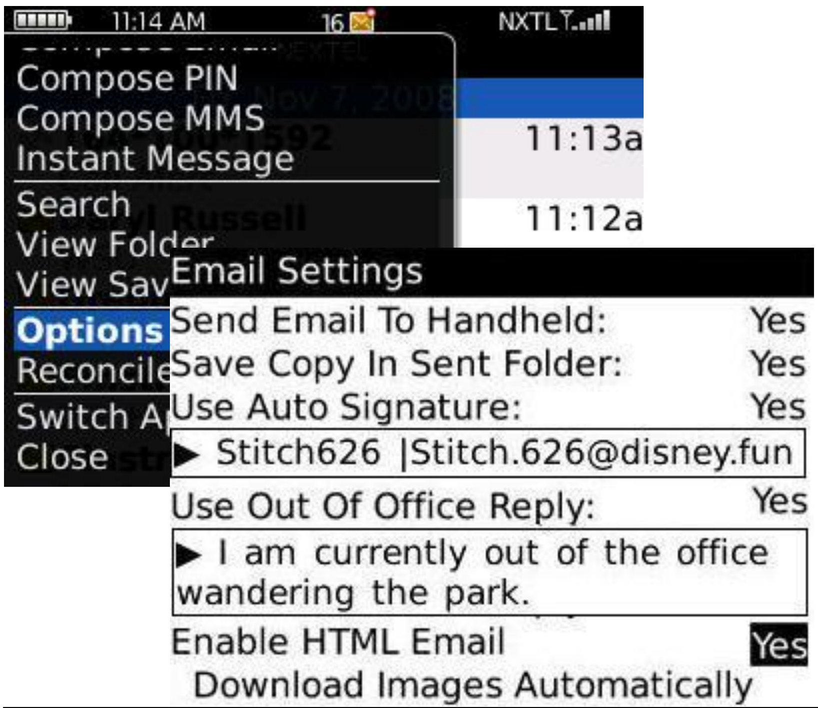

Message Options, Out of Office and Signatures

Key Options to keep your emails working hard!

While in a draft email:

- Press the Menu key.
- Select **Options** from the menu.
- Set message *Priority*: **High**, **Normal** or **Low**

From the Message Inbox:

- Press the Menu key.
- Select **Options** from the menu.
- Select **E-mail Settings**.

Out of Office:

- Set to **Yes** to Turn On **'Out of Office** Alerts'
- Add a Custom Message to be sent out.

Auto Signature:

- Set to **Yes** to Customize and include a Signature for your BB with email replies.
- *Note: Signatures do not carry over from Outlook.*

Clean Up! Creating Organized Chaos...

There are several ways to delete / file messages on the BlackBerry.

To Delete a single message:

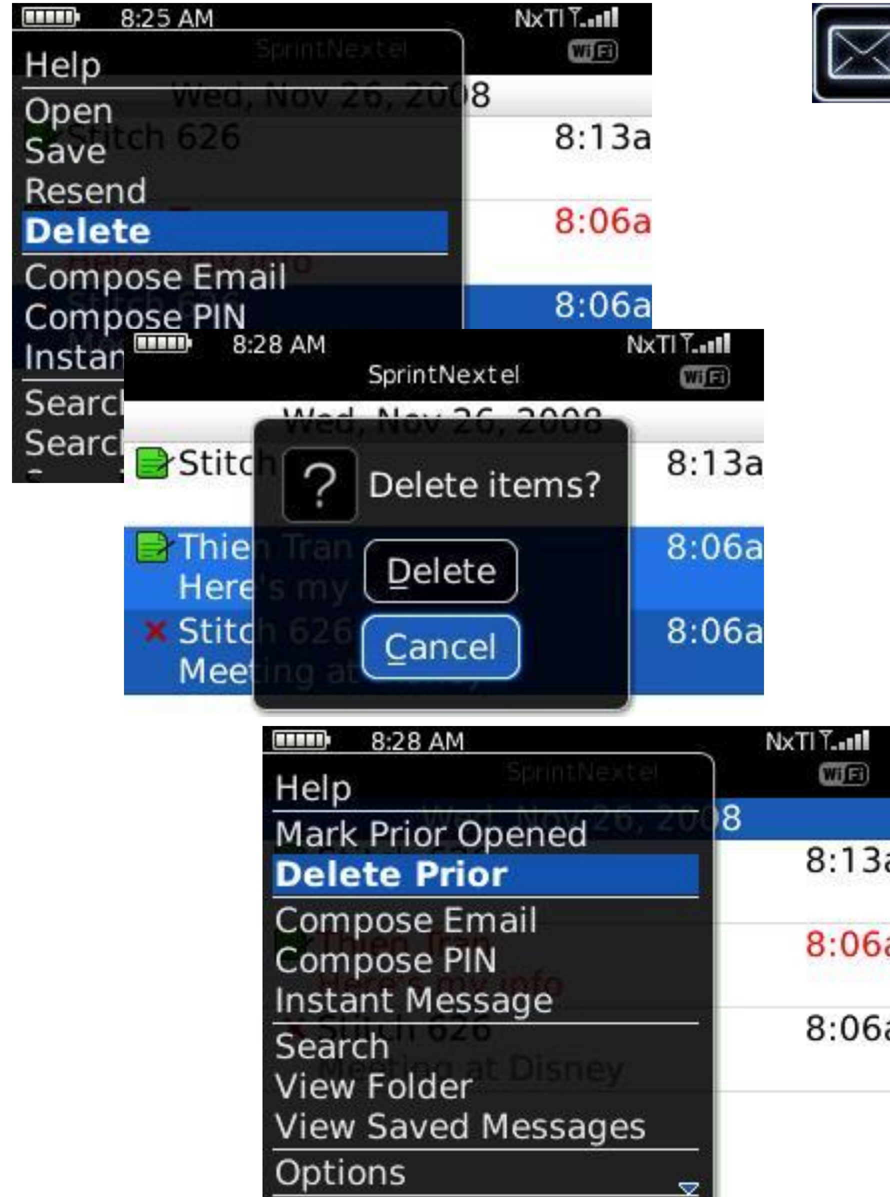

- Highlight a message, Press the **Menu** key and select **Delete** from the listing.
- or Press the **DEL** key on the keyboard!

To Delete multiple messages:

- From the Message Inbox, press and hold the **Left Shift** key and scroll with the track wheel.
- This will highlight several messages at a time then press the **DEL** key.

To Delete days of messages at a time:

- Scroll to any Date Line, ***example Nov. 26, 2008*** and press the **Menu** key.
- Choose "**Delete Prior**" and you will delete all messages INCLUDING that date and before.

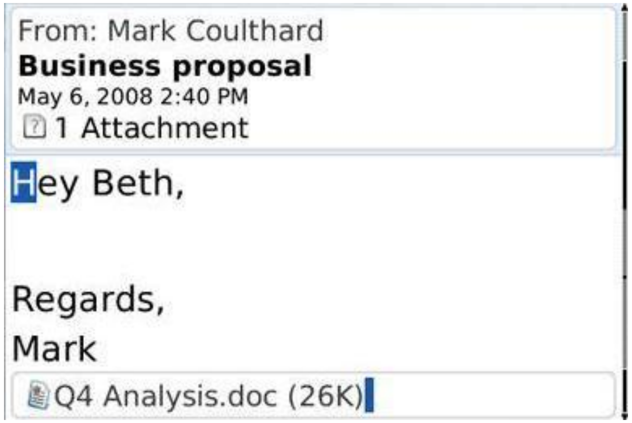

Save Messages:

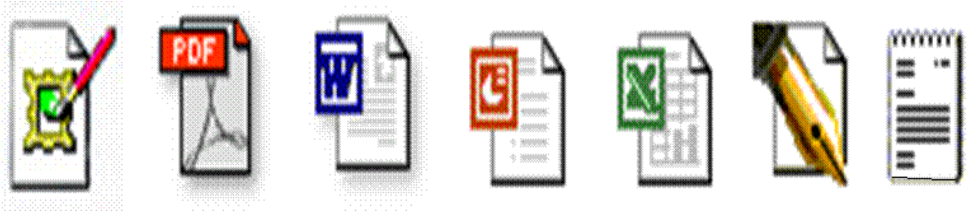

- Messages can be stored on the BlackBerry by selecting **Save** from the **Menu**.

Staying Attached and exploring new Links

The BlackBerry has a standard attachment viewer built in compatible with most file formats.

- In an email with a ‘**Paperclip**’ symbol, the attachment will be listed at the top of the email.
  - In addition, the attachment will also be listed at bottom of the email message.
- Simply highlight the attachment and click in with the Trackball to open the attachment.
- While viewing attachments, press the **Menu** key to select options such as **Zoom** or **Rotate**.
- Attachments can be viewed or forwarded. They can be even stored on the memory card.

View popular attachment types including - .doc, .ppt, .pdf, .gif, .jpg, .tiff, .asf, .wmf, .wav, .mp3, .xls, .txt

Attachment Viewing

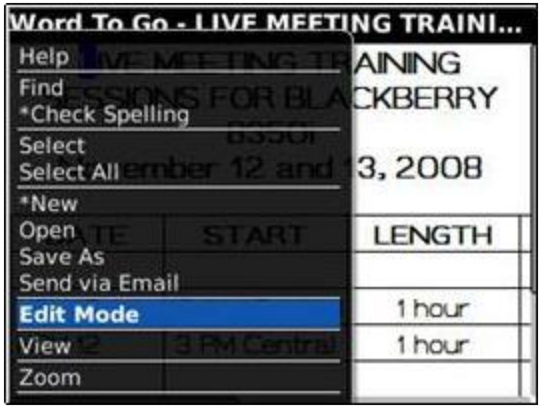

The Curve provides a variety of options to work with MS Office attachments.

Dataviz 'Docs to Go' now included!

- Word and Excel files can be stored, viewed and edited direct from the Curve.
- Slideshow to go works with PowerPoint for mobile presentations. *(Application on CD)*

- **DOCs To Go** can be launched independently from messages in the **Applications Folder**.
- When viewing Office documents, press **Menu** > **Edit** to make changes.

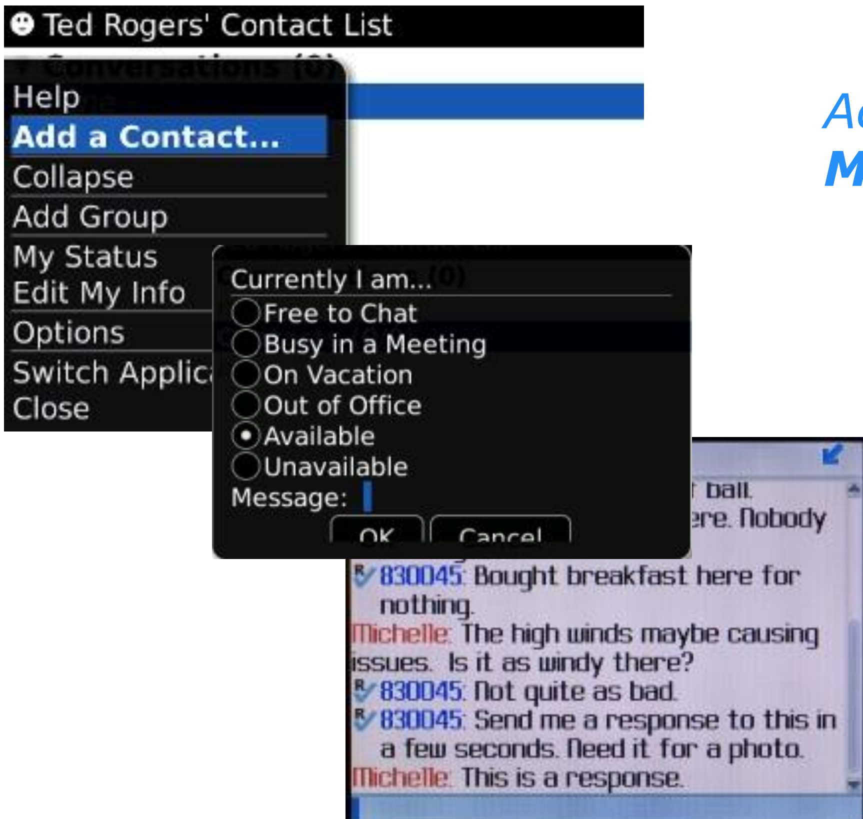

BlackBerry Messenger

Blackberry Messenger is BlackBerry to BlackBerry Instant Messaging

BB Messenger allows you to ‘chat’ with one or multiple users for quick answers in situations where calling or emails would not be effective. BB Messenger runs separately of your email so you can stay in contact regardless of mail server status.

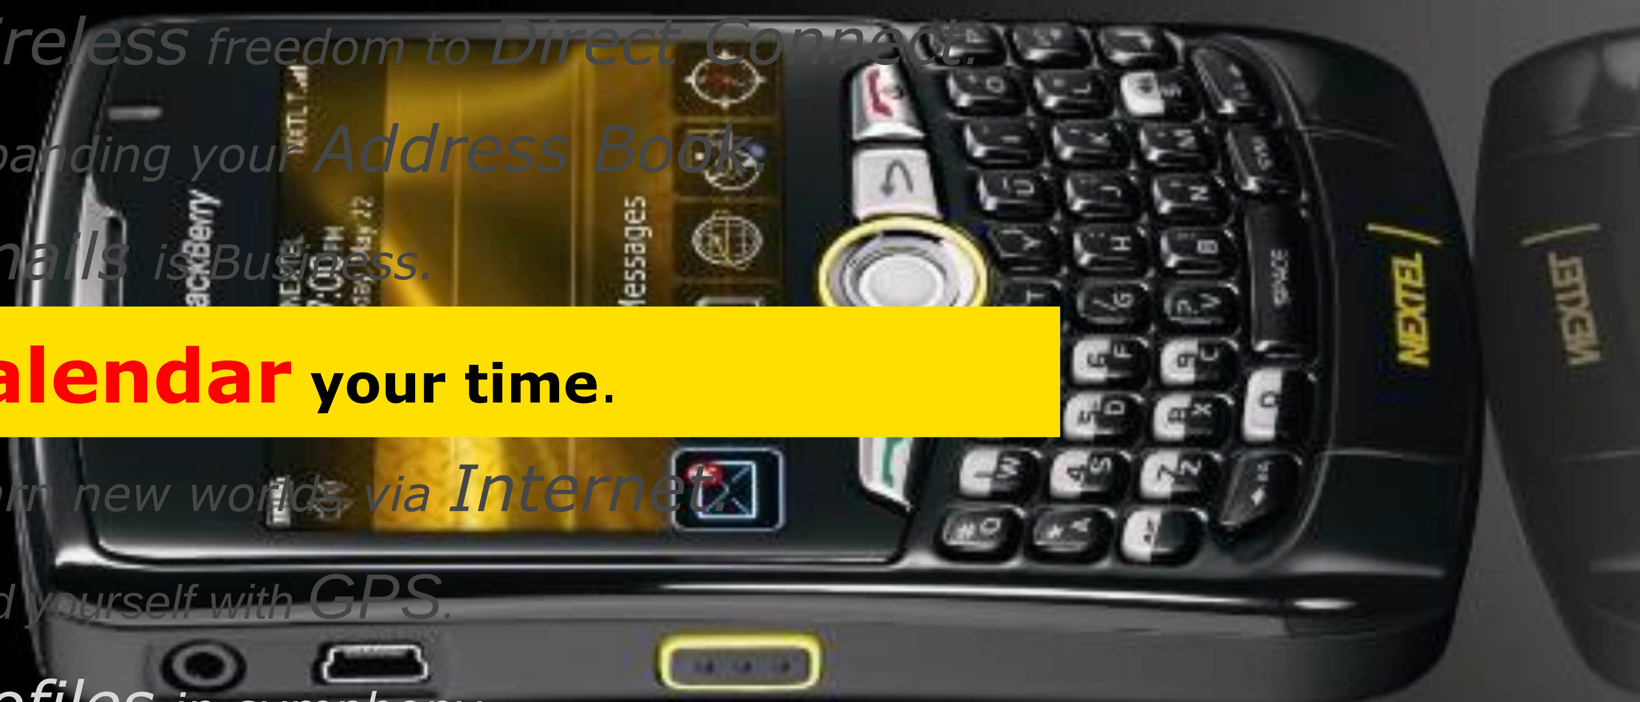

*Access by choosing **BlackBerry Messenger** from Home Screen.*

- First Time users will need to setup a **User Name** and **Password**
- Add IM Contacts via the BB Submenu
  - Just provide the Email Address, PIN ID or pull the contact from your Address Book
  - Contacts being Added can approve or deny requests.
- Contacts will show status of **Available**, *Pending* or *Unavailable*.
- Click on highlighted Contact to begin conversations (IM Chats)
  - Emoticons available via the **SYM** key

Keeping your schedule intact

- The BlackBerry revealed.
- Setting the Options.
- Wireless freedom to Direct Connect.
- Expanding your Address Book.
- Emails is Business.
- **Calendar your time.**
- Learn new worlds via Internet.
- Find yourself with GPS.
- Profiles in symphony.
- Multimedia explosion of Choices...

Being in two places at once

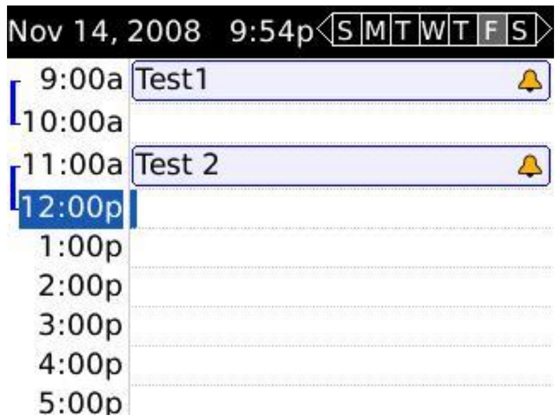

Calendar syncs in real time with your PC calendar

Viewing Appointments:

- There are four main calendar views.

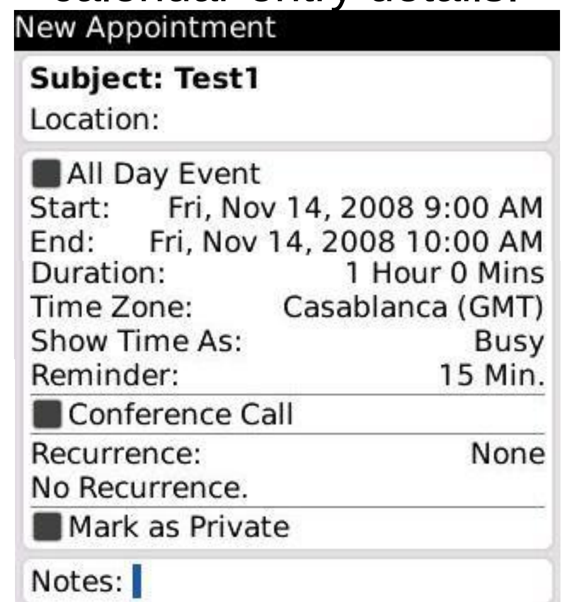

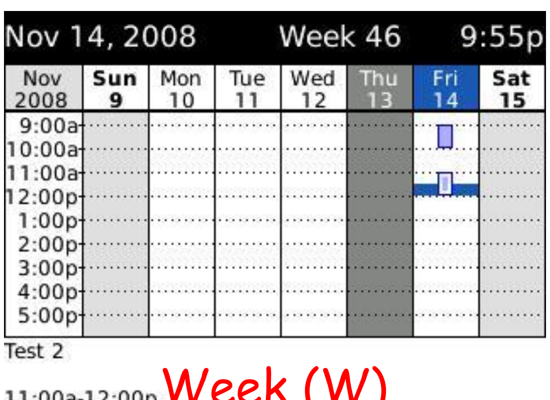

Agenda (A)

Day (D)

Highlight and click the Trackball to see calendar entry details.

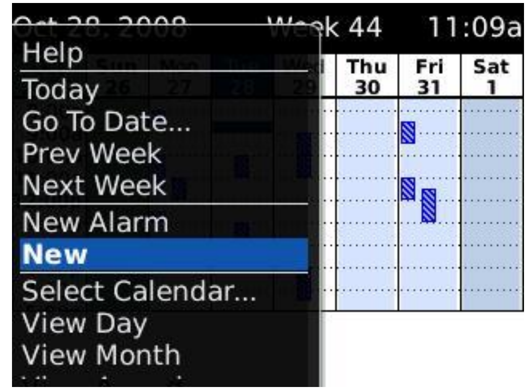

Week (W)

Month (M)

Adding an Entry

Calendar entries can be added just like on your PC!

Adding a Calendar appointment:

- Scroll with **Trackball** or select from **Submenu** > **Go to Date**

*If **Quick Entry** is Enabled-*

- Click in on Trackball and select **New** or begin typing in Calendar details.

*If **Quick Entry** is Disabled-*

- Click in on Trackball and select **New** or press **C**.

- Enter in Entry Details
- Add **Recurrence** if needed.
- Press **Menu** key and select **SAVE** when done.

Calendars and Meetings

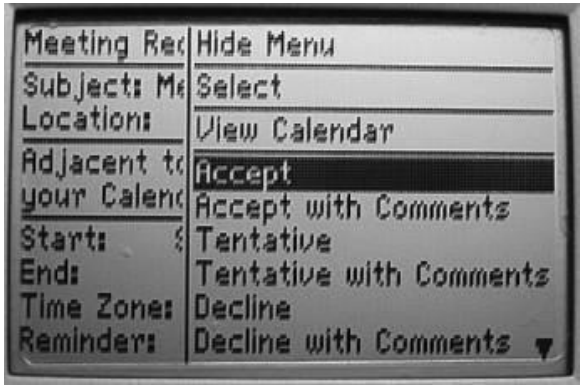

The BlackBerry allows you receive meeting requests while in the field while also initiating your own!

Meeting Invites:

Meeting requests will appear just like in Outlook.

Open the **Menu** and select one of the responses:

- **Accept** or **Accept with Comments**.
- **Tentative** or **Tentative with Comments**.
- **Decline** or **Decline with Comments**.

Adding attendees to your meeting:

- When creating a calendar appoint, open the **Menu.**
- Select Invite Attendees
- Choose clients from your contacts, or manual entry.
- Select **View Availability** to get a 'snapshot' of clients calendar status. (Must be on the same BES).
- Once saved, a meeting request will be sent to the client.
- The Curve meeting details will list attendee status if they've accepted or declined the event.

Expanding your Calendar..

Use Calendar to reach your network in new ways

Storing Conference Call Info:

- Allows for easy access to Dial-In numbers.
- From **Calendars**, press **Menu** > **Options** > **Conference Call Options**.
- Enter in **Moderator** and **Participant** information.
- Press **Menu** > **Save** to store.

Using Conference Call:

- When setting up calendar entries, click on **Conference Call**.
- While viewing the entry, press **Menu** > **Join Now**
- Curve will dial the **Conference Bridge** and prompt to enter the **Access Code**.
- Participants will only see participant Code.

Calendar Options

Define your Calendar, not the calendar define you!

Using Calendar Options:

- Press [menu key] **Menu** > **Options** > **General Options**.

Formatting:

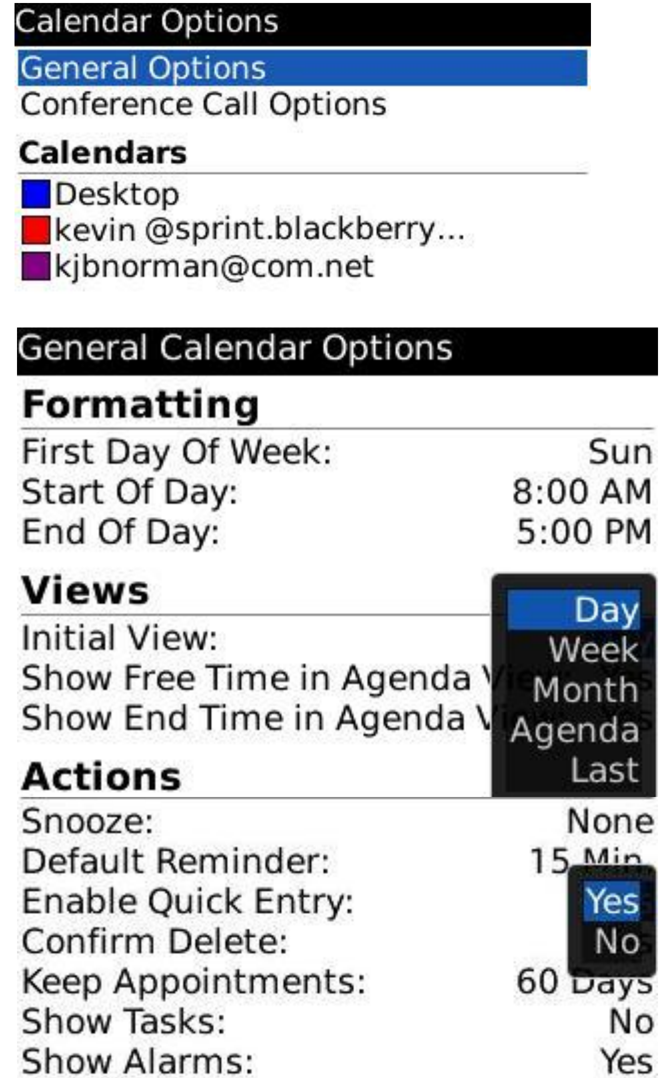

- Adjust **First Day of Week** to fit your work schedule.
- **Start** / **End of Day** adjust Day View accordingly.

Views:

- **Initial View** is default Calendar view.
- Set **Agenda** view options to meet your work style.

Actions:

- **Snooze** controls alert repetition defaults.
- **Default Reminder** sets advance warning of events.
- Disable **Quick Entry** to use Calendar Shortcuts.
- Change past calendar history on the Curve using **Keep Appointments**.

The Internet redefined.

Bluetooth allows you to connect your BB to Hands-free Kits, PCs and more!

Short Range (30 feet) wireless link.

How does it work with the BlackBerry?

- The BlackBerry interconnects with Bluetooth-enabled wireless earpieces, headsets and car kits through an easy “pairing process”
- The pairing process takes as little as a minute.
- Bluetooth allows a variety of features to be transferred to / from select devices.

Bluetooth®

BT Features:

- Wireless Bypass
- Data Transfer
- DUN
- Audio Source
- AV Remote
- SIM Access
- Headset (HSP)
- Handsfree (HFR)
- Serial Port Profile
- Desktop Sync

Connecting with Bluetooth:

- Select from-
  - **Bluetooth Setup Wizard** in Setup Folder
  - **Options Menu**
  - **Manage Connections**

- Once Enabled, press **Menu** > **Add Device**.
- Curve will search for devices in range that are in active BT pairing mode. (See other device manual)
- Select BT device to pair up with.
  - Enter in appropriate PIN code (0000, 1234, etc.)
